

SATYAM GUPTA

Full Stack Developer | React.js • Node.js • Express.js • MySQL

Mumbai, India | +91 9137653421 | satyamg.9137@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer pursuing an MCA (2027) with hands-on experience building and shipping production-style web applications using React.js, Node.js, Express.js, and MySQL. Skilled at designing RESTful APIs, implementing role-based authentication, and integrating third-party services and real-time features. Delivered projects spanning an online coding platform and an AI-powered classroom monitoring system, combining full-stack engineering with computer vision. Seeking a Software Developer / Full Stack Developer role to build scalable, user-centric applications.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), Python (basic)

Frontend: React.js, HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, RESTful API Design, Role-Based Authentication

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Postman, Monaco Editor, Piston API

Concepts: Full-Stack Architecture, API Integration, Computer Vision Basics (OpenCV, MediaPipe)

PROJECTS

DailyCode – Online Coding Practice Platform | [Live Demo](#) | [GitHub](#)

Nov 2025 – Jan 2026

React.js, Node.js, Express.js, MySQL, Piston API, Monaco Editor

- Engineered a full-stack coding practice platform with level-based programming challenges and real-time, multi-language code execution powered by the Piston API.
- Designed and built RESTful APIs with Node.js, Express.js, and MySQL, implementing role-based authentication (Admin/User) and end-to-end submission tracking.
- Integrated the Monaco Editor to deliver an IDE-like coding experience, including automated evaluation of submissions against expected outputs.
- Built a responsive React.js frontend with protected routes and an Admin Dashboard, streamlining problem creation and management for administrators.

NeuroClass AI – AI-Powered Smart Classroom Monitoring System | [Live Demo](#) | [GitHub](#)

Mar 2026 – June 2026

React.js, FastAPI, Python, OpenCV, MediaPipe, MongoDB

- Developing an AI-powered classroom monitoring system that analyzes student attention, fatigue, and engagement in real time using computer vision.
- Built a React.js dashboard connected to a FastAPI backend for live cognitive-score visualization and classroom analytics.
- Implemented facial landmark detection with MediaPipe and OpenCV to estimate attention and fatigue metrics while preserving user privacy.
- Designed role-based dashboards for teachers and students, providing real-time insights, session history, and performance tracking.

EDUCATION

Master of Computer Applications (MCA)

2025 – 2027

Aditya Institute of Management Studies and Research, Mumbai — SGPA (First year): 8.15 / 10

Bachelor of Computer Applications (BCA)

2022 – 2025

Technical Education & Research Institute Post Graduate College, Ghazipur, Uttar Pradesh — 74%
